

Welcome to Redstone Willows

As holders of enhanced CRB checks we have vast experience working with children within schools and clubs as well as with adults. Working with willow helps to exercise our creative skills and is also great fun! It can be incorporated into any school theme to provide stunning indoor sculptures or enhance a playground through the addition of play tunnels or domes. Fun for both Adults and children, most children really enjoy creating something with willow, those who are not academically gifted often excel in a creative workshop, giving them a much needed confidence boost. Below are some examples of work we've done in schools and clubs.
